The little 10-year old son of Tom McKinney, of the Kinsey district, near Forest City, met with quite an accident last Wednesday. He was playing around an old cider mill, and caught the middle finger of his right hand in the cogs, mashing and severely lacerating it. Mr. McKinney brought the little fellow here, and the finger was dressed by Dr. Aiken, and he is now getting along nicely.
—Tuesday last about noon some one entered the house of George Vernon near Amazonia, and stole from a trunk there two hundred dollars in gold and fifty dollars in silver, belonging to Mr. Johnston, an uncle of Mrs. Vernon, who is living with them. George Vernon and Mr. Johnston were at work in the field some distance from the house, and Mrs. Vernon was in St. Joseph. There was no one about the house for several hours. The gold, we understand, is all dated before 1890—Savannah Democrat.

—Remember that it is now against the law to catch fish with a seine, trap or to kill them with dynamite, dam up the streams, or take them from the water by any method other than with a hook and line. All persons violating the law will be prosecuted. Look out. We understand an organization is being quietly effected with the view of detecting those who have been seining at the big lake. If there are any violations of the fish law, we hope the violators may be made to dance to a lively tune.

If they do not make payment under the law he will be obliged to levy on whatever is in sight, to make the taxes and costs and taxes you in arrears for your personal taxes you had better call on him and put up the "wherewith."

—The late rains did not come in time for the fall wheat crop. The wheat had commenced to joint and the stems were very slender and the heads formed are very short. It will be impossible for it to make more than half a crop, and a large portion not more than a third of a crop. Some farmers are contemplating plowing it under and plant in corn; this we doubt would be far the most profitable, under the present prospects.
